RRP: £150.00 + VAT per candidate

Part 1 - Level 1 Health and Safety in a Construction Environment Video Based E-Learning Course

Course Description

Each year in the UK, people are killed, injured and suffer work-related illnesses while carrying out their jobs.

So Health & Safety is a significant concern. The government, employers and workers all have an essential role to play in reducing deaths and accidents and preventing ill-health at work.

This course is aimed at people starting out in the construction industry and can be used as part of their induction process or as preparation for the online accredited exam. Whilst this course, Level 1 Health & Safety in a Construction environment provides you with a qualification in its own right, it can also form part of your CSCS green card application.

The course starts with an introduction to the legal aspects of health and safety before covering the basics of risk assessment and safe working practices. It then goes into detail to cover the most common hazards encountered in construction environments from Working at Height and Respiratory Hazards to electrical and chemical hazards.

Target Audience

The course is aimed at people starting out in the construction industry.

Advantages

The course can be used as part of a company induction process. It can also be used to aid in preparation for the level 1 award Health and Safety in a Construction Environment.

- Download Speed: Broadband (3Mb+)

Duration: 120 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions.*)

Part 2 - Accredited Online Invigilated Exam

Course Description

Upon successfully passing the Level 1 Health and Safety in a Construction Environment Video Based E-Learning Course (Part 1) you will be given access to our online invigilated examination which can be taken anywhere. You will be able to access the examination 3 working days (Mon-Fri) after completing the online course as it takes this long for your registration details to be processed by the examining body.

Our market leading examination system delivers the final assessment direct to your candidate via the internet, invigilated using screen sharing and web cam, allowing them to receive their accreditation quicker and easier without the stress and hassle of visiting a training and exam centre.

As a UK Registered Learning Provider, our online exam is fully accredited by ETA Awards.

Target Audience

The course is only available to candidates who have completed the Level 1 Health and Safety in a Construction Environment Video Based E-Learning Course.

Further Progression

Upon successfully passing the online invigilated examination, you can then apply for the Green Card (CSCS Touch screen test is also required). The CSCS Touch screen test can be booked directly through the CSCS. Please visit their website for further details and prices.

Duration: 40 minutes

Online Level 1 Health and Safety in a Construction Environment (Leading to CSCS Green Card)

**Level 1 Health and Safety in a Construction Environment Video Based E-Learning Course &
Accredited Online Invigilated Exam Bundle**

RRP: £150.00 + VAT per candidate

Candidate Process

1. Visit <https://videotilehost.com/tltraining/index.php> and click 'purchase here' in the bottom right corner of the screen.
2. Click 'Course Bundles' in the top menu.
3. This should bring up the CSCS Green Card Course, simply add this to cart and select checkout.
4. Complete payment/registration process.
5. You will then be able to access the Online Level 1 Health & Safety in a Construction Environment course which has an estimated completion time of 120 minutes.
6. Upon completion of the Online Level 1 Health & Safety in a Construction Environment course, your details will be passed to the examining body for test registration. An email confirming instruction will follow shortly after this and registration takes 3 days to complete. Therefore, if you complete the online course (part 1) on Monday, you would be able to access the examination (part 2) from Thursday.
7. The test takes 40 minutes and will be conducted under strict examination conditions.
8. Upon successfully completing the examination, you will be sent a certificate and registration number which can be used in your application for the Green Card. Certification can take up to 10 days to arrive and a touch screen test at a CSCS approved centre is also required before the card is issued.
